RE: Content of the OCS Air Permit Application for Garden State Offshore Energy(GSOE) and Deepwater Wind Company

Hi Carla:

Based on the GSOE- Notice of Intent(NOI) that you have submitted to us, I understand that the NOI reflects only preliminary project information and the air permit application will be constructed based on a final project design. Therefore, I would like to advise you to address the function(i.e purpose) of each emitting source(equipment that will be included in your application( i.e NOI -Table A-1 Equipment List - attached).

So that please specify whether the equipment is:

- a main or auxiliary marine vessel engine
- a portable generators on a vessel ( i.e that provides additional power for the vessel or keeps the vessel in position )
- a generator used to power a construction equipment

If you have any questions about this e-mail please contact me at 212-637-4021.

Thank you,

Viorica Petriman
